On 8 November 2005, the company announced a bonus issue of shares of 1 for 5 existing shares which was subsequently approved by the SGX on the 3<sup>rd</sup> January 2006. The bonus issue of shares of 60,309,790 was credited as fully paid by transferring the amount of \$6,030,979 from the Share Premium account to the Share Capital account. Hence the number of fully paid up shares of \$0.10 each increased from 301,459,000 to 361,858,790. These new shares were allotted and credited to the shareholders' account and were listed on the SGX on 25<sup>th</sup> January 2006.

**2. Whether the figures have been audited, or reviewed and in accordance with which standard or practice.**

The figures have not been audited or reviewed.

**3. Where the figures have been audited or reviewed, the auditors' report (including any qualifications or emphasis of matter)**

Not applicable.

**4. Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied**

The same accounting policies and methods of computation as in the most recently audited financial statements have been applied except as disclosed in Note 5.

**5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change**

Changes in accounting policies

In 2005, the Group and the Company adopted the Financial Reporting Standards (FRS) below. The 2004 comparatives have been amended where as required, in accordance with the relevant transitional provisions in the respective FRS.

A brief description of those FRS which have an impact on the financial statements of the Company and of the Group had been set out in the first quarter financial result announcement.

The adoption of these FRS did not have a material effect on the operating results for the third quarter of 2005 ended 31 March 2006.

(a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and  
(b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on**

**REVIEW OF OPERATING PERFORMANCE FOR THE QUARTER ENDED 31 MARCH 2006 vs QUARTER ENDED 30 APRIL 2005**

**Turnover**

**Nine months ended 31 Mar 2006**

Group revenue for the nine months ended 31 March 2006 was \$134.5M, a decrease of 13% compared to the nine months ended 30 April of the last financial year during which large orders were received and steel prices were high. Furthermore in the present nine months from 1 July 2005 to 31 March 2006 selling price for plates had been weakened due to oversupply. On the other hand demand and selling price for pipes and fittings had remained firm as they continued to be underpinned by the robust activities in the oil and marine sectors.

**Quarter ended 31 March 2006 (3QFY06)**

Revenue for 3QFY06 of \$43.9M was 35% lower than 3QFY05 (\$68M). However revenue for this quarter is comparable to those of the earlier two quarters (1QFY06:\$44.5M;2QFY06:\$45.9M), despite a short month in February and the Chinese New Year holidays. This indicates demand for the Group's products had remained firm.

**Staff cost, Depreciation, Other operating expenses & Finance cost**

Staff costs reduced 34% to \$5.7M from \$8.6M arising from lower provision for bonus and profit-share as a result of lower profits for the nine months ended 31 March 2006.

The higher finance cost of \$871k was mainly due to the rising interest rates since the beginning of the current financial year.

For 3QFY06, a provision for doubtful trade receivables of \$249k was made compared to a writeback of \$15k in 3QFY05, thereby causing the other operating expenses to record a higher amount.

## **Profitability review**

For the nine months ended 31 March 06, net profit after tax was \$9.3M compared to \$17.1M in the corresponding financial period. Net profit after tax for the current quarter was \$3.1M compared to \$7.2M for the corresponding financial quarter. The decrease in net profit after tax for both the nine months and the current quarter was in line with lower margin and revenue.

## **Cashflow**

The Group turned in a strong positive operating cash inflow of \$39.1M for the nine months ended 31 March 2006 compared to an outflow of \$24.5M for the corresponding nine months of the last financial year. This inflow of cash was utilised to repay borrowings, particularly trust receipts, as they matured.

## **REVIEW OF FINANCIAL POSITION AS AT 31 MARCH 2006**

### **Non current assets**

In accordance with the revised accounting standard FRS 103 on Business Combination, no amortisation of goodwill has been taken up for the period ended 31 March 2006. No impairment in value was made during the period as the business, from which the goodwill arises, was expected to remain profitable.

### **Current assets and current liabilities**

The Group had cash and cash equivalents of \$12.9M for the period ended 31 March 2006.

Trade and other receivables were lower at \$42.8M compared to \$55.1M due to lower turnover and tighter collection.

In view of the weak plates market, the Group had reduced its inventory holding from \$67.5M to \$47.1M.

Borrowings decreased significantly from \$58.7M to \$21.9M due to repayment of trust receipts as they matured and reflected the Group's cautious purchasing pattern in the light of higher material costs.

### **Non current liabilities**

Non current borrowings fell from \$1.3M to \$2k is mainly the result of reclassification of the borrowings to current liabilities.

### **Share capital and reserves**

On 8 November 2005, the company announced a bonus issue of shares of 1 for 5 existing shares which was subsequently approved by the SGX on the 3<sup>rd</sup> January 2006. The bonus issue of shares of 60,309,790 was credited as fully paid by transferring the amount of \$6,030,979 from the Share Premium account to the Share Capital account. Hence the number of fully paid up shares of \$0.10 each increased from 301,459,000 to 361,858,790. These new shares were allotted and credited to the shareholders' account and were listed on the SGX on 25<sup>th</sup> January 2006

In addition, with the recent implementation of the Companies (Amendment) Act 2005 on 30 January 2006, any outstanding amount in the share premium account has now been treated as part of the paid up capital of the company. As a result, the share premium account had been eliminated and its balance is aggregated to the share capital account, thereby increasing the share capital amount to \$59.3M.

**9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results**

No forecast or a prospect statement has been previously disclosed to shareholders.

**10. A commentary at the date of the announcement of the competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months**

The Group expects the demand for its products to remain firm as the oil, gas and marine sectors continue to report strong order books coupled with a strong growth in the local economy for the current calendar year.

Prices for plates which had been weak recently are now showing signs of recovery and the market is also believed to have worked out its overstock situation. Margin for this product is expected to improve in the coming quarters. Margins for the Group's pipes, fittings and other structural products are expected to remain stable.

Although demand for the Group's products is expected to be healthy amidst steady supply, the directors do not expect the Group to achieve the same exceptional revenue and profits recorded for the last financial year.
