REVIEW OF OPERATING PERFORMANCE FOR THE QUARTER ENDED 31 MARCH 2009 ("3QFY09") vs QUARTER ENDED 31 MARCH 2008 ("3QFY08")

Revenue and Gross profit

With the global economy slipping deeper into recession in the first 3 months of 2009, the Singapore economy contracted more significantly during the period. Market demand for steel products shrank rapidly resulting in lower volume recorded for the Group's 3QFY09.

The Group reported a lower revenue of \$50.0M for 3QFY09 compared to \$120.0M recorded for 3QFY08. The decline in turnover was a reflection of the severe global economic downturn experienced during this period. Demand for steel products was weak in both local and overseas markets, leading to the low turnover reported. In addition, prices fell faster and steeper than expected which eroded the gross profit margins.

As the Group held lower inventories balance in 3QFY09, a smaller amount of \$3.3M was set aside for the writing down in inventories to net realisable value. Previously, the write down in inventory was presented under other operating expenses. For 3QFY09, this write down was presented under the 'changes in inventory' line. Following this revised treatment, the gross profit for 1QFY09 and 2QFY09 would have been \$21.8M (1QFY08:\$16.4M) and \$9.8M (2QFY08:\$17.1M) respectively.

The gross profit for 3QFY09 was \$2.1M compared to \$20.0M reported for the corresponding quarter a year ago.

Staff costs, Depreciation, Other operating expenses and Finance cost

Staff costs for 3QFY09 fell 41% to \$1.8M from \$3.1M reported for 3QFY08 mainly due to steps taken to reduce salary costs, Government funding arising from the Job Credit Scheme, and no provision for staff incentives and profit sharing.

The slightly higher depreciation expense of \$421K (3QFY08:\$405K) was due to the full 3 months depreciation (3QFY08: 1 months) taken on a warehouse purchased in Feb 08.

Other operating expenses for 3QFY09 declined to \$1.6M from \$5.4M. The lower expenses were largely due to various cost saving measures implemented and also as a result of an exchange gain of \$54K for 3QFY09 compared to an exchange loss of \$932K recorded for 3QFY08.

Finance cost-net comprised interest expense and foreign exchange loss arising from borrowings. Interest expense of \$271K incurred for 3QFY09 was lower than \$914K reported for 3QFY08 as the Group had reduced its borrowings during the quarter. The saving achieved in the finance cost-net in 3QFY08 was mainly due to a foreign exchange gain of \$2.6M arising from the revaluation of trust receipts outstanding in the books compared to a loss of \$0.5M incurred for 3QFY09.

Loss attributable to equity holders of the Company

For 3QFY09, the Group registered a net loss of \$1.9M attributable to the equity holders of the Company. However, the Group remained profitable for the 9 months ended 31 March 2009 with a reported net profit after tax of \$11.5M.

Cash Flow

The Group was able to generate an operating cash inflow of \$50.0M in 3QFY09 compared to an outflow of \$34.8M in 3QFY08 as a result of concerted efforts at debt collection and much of the amount collected was used to reduce borrowings.

REVIEW OF FINANCIAL POSITION AS AT 31 MARCH 2009

Current assets and current liabilities

Trade and other receivables reduced to \$56.4M from \$109M as the Group concentrated its effort in debt collection to minimise credit risk arising from the economic downturn.

The Group reduced its inventory holding as mills' offer prices fell rapidly during the period. The lower purchasing activities resulted in the reduction of the Group borrowings from \$64.7M to \$11.3M.

Trade and other payables fell to \$10.1M from \$42.7M and borrowings fell to \$11.3M from \$64.7M reflecting the Group's ability to generate cash to pay its liabilities when they fell due. The Group's quick ratio stood at 1.02 as at 31 March 2009.

Non current assets and non current liabilities

The Group's available-for-sale financial assets of \$7.7M were marked to market as at 31 March 2009. Investment properties and goodwill were not impaired as the underlying assets were either bought at low cost or the associated business fundamentals were adjudged to remain sound.

Share capital and reserves

Fair value reserves declined to \$242K from \$1.0M due to reduction in the market values of the Group's available-for-sale financial assets as at 31 March 2009.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

The results are in line with the profit guidance issued by the Company on 30 April 2009.

10. A commentary at the date of the announcement of the competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months

The Group believes that the combined inventory level in the market has decreased considerably as many suppliers did not replenish their stocks during the last 3 months. This would lead to a gradual stabilisation of selling prices. With mills also adjusting their supply in response to market demand, the Group believes that it would provide further relief to the downward pressures on prices.

Market requirement for steel products is expected to flow from the Marine Sector as its order books remained full. Demand condition is expected to improve when the budgeted government infrastructural projects move into the implementation stage within the next few months.

The Group had minimised inventory purchases, concentrated on debt collection and repaying bank borrowings during the quarter. It had a positive operating cash inflow for 3QFY09 and held a cash balance in excess of its current liabilities, reflecting its strong financial position.

The Group will continue to manage its operating costs in order to remain competitive. It will also seek to take advantage of market opportunities to selectively replenish its inventory.

With the financial crisis now affecting the rest of the market, business conditions ahead will remain challenging. However the Group with its strong balance sheet and manageable borrowings is confident to ride out this difficult period.
